

TAU™ SHIELD SERIES

COMPLETE PROTECTION FROM THE ELEMENTS

Our Shield Series fabrics go the extra distance for the ultimate protection in inclement weather. With waterproof membranes, stretchable ultra-tight weave patterns or Durable Water Repellency (DWR), our Shield series fabrics provide complete protection from the elements in comfort and style.

SHIELD

Outer layer to provide maximum protection, comfort and breathability in even the worst conditions

SHIELD SOFT SHELL

Durable, versatile and designed for complete freedom of movement

SHIELD MULTI-LAYER

High Performance Laminates offering advanced breathability and Durable Water Repellency (DWR)

SHIELD HD

High Density configuration for wind-blocking, water resistance and superior breathability

USE:

Shield Series fabrics provide shelter without sacrificing performance or comfort. By itself or in combination with other Tau fabrics, Shield Series fabrics provide the right performance in all weather.

SERIES BENEFITS:

- **Windproof and Waterproof membranes** – can be laminated to various layers of fabrics, including knits, wovens and warp knits
- **Breathability** – breathable membrane or coating with high grade moisture permeability to release vapor and keep you dry
- **Wind protection** – blocks wind through a special knit construction
- **Superior durability, stretch and recovery** – versus comparable competitive fabrics
- **Easy Care** – machine washable and dryer safe
